DID YOU KNOW?

In 2020, we lost 47,511 Americans to suicide, which makes it the 10th leading cause of death in the U.S.. Suicide can be prevented, and we all have a role to play. While there is no single cause for suicide, there are risk factors and warning signs which may increase likelihood of an attempt. Knowing them can save lives. To learn more about how you can take action during Suicide Prevention Awareness Month, visit afsp.org/nspw. Together we can help #StopSuicide
